DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 68-79, drawn to a glazing bar, classified in class 52, subclass 204.5.
 - II. Claims 80-90, drawn to a ridge end member, classified in class 52, subclass 633.
 - III. Claims 91-99 and 109, drawn to a valley rafter assembly comprising first and second wing members, classified in class 52, subclass 633.
 - IV. Claims 100-108, drawn to bracket arrangement, classified in class 52, subclass 698.
2. Inventions I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In this instant case, invention I has separate utility such as a holding a pane of glass. Invention II has separate utility such as half of the roof structure in a circular building. Invention III has separate utility such a sliding board with a central valley. Invention IV has separate utility such as a bracket connecting the scaffolding structure of stadium seats. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3635

A telephone call was not made to applicant's attorney to request an oral election to the above restriction requirement. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roland Bergeron whose telephone number is (571) 272-2943. The examiner can normally be reached on 7:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Friedman can be reached on (571) 272-6842. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
